TEST & MEASUREMENT

Portable Shaker, Model 699A02, delivers controlled, 1 g rms or 1 g peak acceleration to test accelerometers and vibration sensors weighing up to 250 g. Operating at 159.2 Hz, it has automatic shutoff, external power jack, mechanical stops for overload protection, and capability to perform up to 1,600 operating cycles in field. Unit meets NIST traceability requirements. IMI Sensors; 800-959-4464; Tech Contact: Sales@IMI.com

All-Purpose Lubricant is biodegradable.

For loosening rusted nuts and bolts, Model B-404 clings to surface and does not evaporate, providing long-lasting effects. Lubricant's nontoxic formula will not pollute water, soil, or working environment. It is formulated with optimized USA-grown vegetable oils.
