Camie-Campbell Launches New Embroidery Adhesive

(Thu, Aug 19, 10)

(SGIA Booth 215) Camie-Campbell, Inc. is proud to announce the release of Camie 305 Embroidery Adhesive for the temporary bonding of fabric and paper. The product will debut at the 2010 SGIA Expo on October 13–15 at Booth 215. Camie 305 Embroidery Adhesive was formulated for the temporary bonding of fabric or paper for sewing, appliqué and embroidery applications. Along with other Camie-Campbell adhesive products, Camie 305 delivers quality for specific adhering situations. This product allows for the fabric or paper to be repositioned several times while retaining its abilities and function. In addition, Camie 305 does not gum up sewing needles.
